## **President's Corner**

The midterm election in November is fast approaching. Take the time to vote for and support Second Amendment candidates on the ballot. Without their support of our God given rights we are at great risk of losing them. The chance to be an election judge poll worker is a way to help keep the process honest and transparent. Contact your local Board of Elections to volunteer.

To show that the unhinged left never gives up. The credit card providers are being pressed to create a new code on credit card transactions to identify purchases of guns from gun dealers. This is an end run to keep track of who bought what and where. The sales of ammo would also be flagged. Thank God for Attorney Generals in Tennessee and Montana as well as 11 Republican Senators attempting to prevent this end run on our Second Amendment.

Thank you to all of the people that supported the Friends of the NRA dinner and auctions in the area. The money raised goes to support youth shooting programs. The younger generation that has good skills, training and knowledge will help protect our rights for the future.

In November "VOTE YOUR GUN RIGHTS"

Have fun! Get active!

President, GCLA

## **Election Time is Here**

The 2022 election is upon us. It is more important than ever to keep pro-gun legislators in Jefferson City and Washington DC. We need to support our friends who are in office and make friends of those who we want in office.

We can do this by donating to the candidates that we agree with. Donate money, donate time, volunteer at the campaign offices. They remember those who support them.

## Gun Control HIDDEN Inside Funding Bill

---

Anti-gunners in Pelosi's House have a new plan to ram through gun control provisions before they officially retire or lose their seats in January.

The House is about to vote on a Continuing Resolution bill to fund the government, which will likely expire in December.

At that point, Congress will be in a lame duck session, and will try to pass a funding bill for fiscal year 2023 – BEFORE the new House majority takes hold.

Hidden inside that funding bill for 2023 are TEN gun control provisions – including budget hikes for the ATF!

That's why we need to tell Congress not to let the Continuing Resolution expire before the next House majority takes hold.

Here are the TEN gun control provisions hidden in the FY 2023 Commerce, Justice, Science Appropriations bill:

1. Massive ATF Budget Increase to Facilitate Biden's Pistol Ban
2. Gun Registration Funding
3. Gun Confiscation Law Funding
4. Financial Benefits for Families of Deceased ATF Agents Killed or Injured on the Job while Enforcing Gun Control
5. Ammunition Background Check Study
6. Gun Control Research, Unbound by the Dickey Amendment

7. Anti-gun Community Violence Interventions
8. "Domestic Violence Firearms Lethality Reduction Initiative"
9. "Violent Anti-Government Ideology" Research
10. Gun Control Earmarks

This bill also provides the ATF with \$14,000,000 to modernize the National Tracing Center, which is the branch that maintains, accesses, and searches ATF's digital, searchable gun registries.

And to ensure that NO ONE gets away with failing to comply with the ATF's burdensome regulations, the bill proposes \$40 MILLION for gun confiscation orders.

We all remember Biden's speech where he called half of the country a "threat to democracy."

In the above list of 10 gun control provisions, there's funding for: "Violent Anti-Government Ideology" Research.

It's not hard to imagine that gun owners who own so-called "assault weapons" and share our Founding Fathers' hatred of tyranny could be considered anti-government ideologues.

We cannot let this spending bill get passed by anti-gun lame duck members of the House before the new House majority takes hold.

## Democrat Candidates Reject Our Gun Rights

---

All of the Democrat candidates in Missouri that have a voting record have a D or F rating.

All of the Democrat candidates in Missouri without a voting record did not return the NRA questionnaire.

The 2012 election was the last time that the NRA-PVF candidate ratings had Democrat candidates with an A or B

rating, and almost all returned the questionnaire to the NRA.

This is a continuing shameful and scary turn of events.

If you are truly a supporter of the Second Amendment, please consider your vote carefully. Remember, elections have consequences.

## New Credit Card Rule Creates Gun Registry

On September 9, the International Organization for Standardization (“ISO”) announced that it would create a new Merchant Category Code (“MCC”) specific to firearm and ammunition retailers. MCCs are the codes that payment processing networks (like Visa, MasterCard, and American Express) use to categorize various transactions. This is the system that allows various credit cards to offer different benefits for certain categories of purchases or to charge different fees for those same categories.

In June, Amalgamated Bank petitioned the ISO to create a new firearm specific MCC. This was the second such petition after the ISO denied an identical petition last year. The petition was supported by, among others, Sen. Elizabeth Warren (D-MA), New York Mayor Eric Adams, and the anti-gun groups Giffords and Guns Down America. The petition, at least initially, seemed to lack the support of Visa, MasterCard, and American Express.

If fully implemented by the various payment processors, the hope of gun control groups for this new MCC is that it would create a registry of gun owners that they have long sought and provide them with another tool to attack lawful industry when firearms are used in crime.

Several provisions in federal law, but most notably a key part of the Firearm Owners Protection Act of 1986, prohibit the federal government from centralizing most firearm records into a

registry. The new MCC could provide a way for the government to outsource the creation of a registry that the government itself is prohibited from creating. If banks and payment processors share their records with the government, that would be a major step towards the registration of all gun owners in America.

Anti-gun groups will almost certainly use the new flagging system to create liability for any banks or payment processors who do business with the firearm industry. When a firearm is used in a high-profile crime, these groups will now also sue any bank or payment processor that facilitated any transfer of the firearm and claim that these financial institutions didn’t do enough to stop the gun from falling into the wrong hands. The inevitable goal of such a campaign is to convince banks and payment processors to stop dealing with the firearm industry entirely by claiming that it is “too risky” of an industry to be involved with. In this case, that “risk” is being manufactured by the creation of the new MCC.

Fortunately, the ISO codes are not mandatory for payment processors to adopt. Pro-gun representatives and senators are already working to ask the major payment processors if and how they intend to implement the new code.
